THANK YOU!
(Or as they say in Germany)

Donkey Chain!

I am always pleased to receive mail and today I was doubly blessed to find not just one but two letters in my box. My joy was only slightly attenuated when I realized that they were copies of the same missive.

Write back soon. In my experience the Post Office has never failed to deliver a letter, so I have every reason to believe that your correspondence will get through just fine.

Vii in
